

LOCATION

The Museum will be located on the first floor of 3 Prince Street, “Little Prince Street.” It is on the Freedom Trail between Hanover Street and North Square in the heart of the North End as well as being close to the Old North Church and steps away from the Paul Revere House. The center of the North End is a commercial area going back two centuries with over 2 million visitors annually.

THE PROJECT

The North End Historical Society (NEHS) is thrilled to announce that the North End will have its own Historical Museum for the first time!

“Establishing a Historical Museum has been a passionate vision and one of our longterm goals since our inception in 2011. It is essential in fulfilling our mission to help preserve and enhance the history and heritage of the North End in perpetuity.”

- Tom Damigella, President of NEHS

This dream is made possible by Frank DePasquale of DePasquale Ventures. Frank is a North End leader who cares deeply about our iconic neighborhood. “The NEHS has demonstrated it is the perfect non-profit organization to build and operate a museum for our beloved North End.” Frank DePasquale invested in NEHS’s mission by purchasing the first-floor condo space at 3 Prince Street and provided a 5-year lease free arrangement with only triple net operating costs by the NEHS. In addition, The Honorable Aaron Michlewitz, North End Massachusetts Representative and Chairman of the House Ways & Means has arranged a substantial grant for the Museum because of its cultural importance to the community.

THE VISION

The interactive Museum will encourage visitors to explore the history of the North End, taking into consideration the changing boundaries of the North End over time, which have in the past included the Mill Pond area, Faneuil Hall and the Waterfront, and up to Scollay Square and the West End. Throughout time, the North End was an essential stepping stone for millions of immigrants from many different countries. Their emotional and inspiring stories will be told through a series of interactive and immersive experiences.

The NEHS has begun working with Trivium Interactive, a North End-based immersive design firm specializing in storytelling experiences.

HOW CAN YOU HELP?

We need additional help building intellectual, educational, and technological programs to meet our goal. Please donate to the North End Museum History Fund of the North End Historical Society, a MA 501(c)(3) non-profit, to make this a reality. All contributions are tax deductible and will be officially acknowledged. Contributions can be made by check, PayPal, or credit card.
